

Workshop Notice

Cosumnes Power Plant (01-AFC-19) Staff PSA Workshops

DOCKET 01-AFC-19
DATE SEP 11 2002
REC'D SEP 11 2002

Purpose: On August 7, 2002, California Energy Commission staff filed the Staff Assessment (PSA) that included all subject areas except for Alternatives, Visual Resources, Visible Plumes, and the Water Supply and Cooling Options for the Cosumnes Power Plant project (CPP) Application for Certification, proposed by the Sacramento Municipal Utility District (SMUD). On September 11, 2002, staff filed the remaining supplemental analysis. Both parts of the PSA are now available from our web site at www.energy.ca.gov/sitingcases/smud; or you may call Kristy Chew (see below), to have it mailed to you. The purpose of these workshops is to receive comments on staff's technical analysis from the applicant, members of the public, intervenors in the proceeding, and local, State, and federal agencies. Comments will be used to revise the PSA and will be incorporated into the Final Staff Assessment (FSA). Public comments on the PSA Supplement are welcomed and are encouraged to be received in writing by **October 11, 2002**.

When:	Tuesday, September 24, 2002
Location (see map): Location is wheelchair accessible	California Energy Commission 901 P Street (Bonderson Building) 4th Floor Conference Room Sacramento, CA 95814

Agenda:	<ul style="list-style-type: none"> • Alternatives • Visual Resources • Visible Plumes • Water Supply and Cooling Options • Any outstanding issues

**** A toll-free conference number has been established for the workshops for those that cannot attend in person but wish to participate or listen to the workshop. Please call 1-888-459-9169. The passcode is "27108" and the call leader is Kristy Chew.**

Project Summary: SMUD proposes to develop the CPP, a 1,000-megawatt (MW), natural gas-fired, combined cycle power plant near the decommissioned Rancho Seco Nuclear Plant, 25 miles southeast of the City of Sacramento, in Sacramento County. The project would be located on a 30-acre portion of an overall 2,480-acre site owned by SMUD. SMUD plans to develop the project in two 500 MW phases.

Public Participation: The public is encouraged to participate and provide comments. For information on how to participate in the Energy Commission's review of the proposed project, please contact Roberta Mendonca, the Energy Commission's Public Adviser, at 916/654-4489, toll free in California at 800/822-6228, or by email at

Date

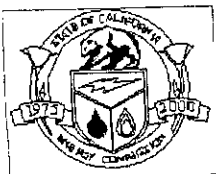

ROBERT PERNELL, Commissioner and Presiding Member

Mail lists: POS, 7124, 7125, 7126

The Energy Commission is located adjacent to the 8th/O Street Light Rail Station and area bus stops.

Parking is available at meters on surrounding streets for 25-cents for 20 minutes, with a strictly enforced two-hour maximum. Feeding the meter every two hours will not prevent receipt of a ticket. A limited number of 10-hour meters are located along the streets. A public parking garage is located on 10th Street between "O" and "P" streets (entrance on 10th), though it usually fills up early in the day. Another garage is located at 10th and "L" streets, with the entrance on 10th Street.
